MARQ Packaging Company  
P O Box 9063  
Yakima, WA 98909

To MARQ Packaging Equipment:

This testimonial letter was written to express our satisfaction with the MARQ HPE215-E Case Erector Bottom Sealer that we recently installed from you.

The MARQ Case Erector has given us the ability to achieve our goals in reducing labor costs while increasing production from 1,700 to 2,400 boxes per day. With the decrease in costs and increase in profits, the payback on this machine is well worth the investment.

I highly recommend your video to better demonstrate the abilities of the HPE215 Case Erector to anyone that has not had the opportunity to experience the performance difference between this machine and others. Although the decision had already been made by our corporate personnel to purchase the MARQ equipment for its performance and added value, the video is a great touch to help visually explain the story.

The professionalism of the sales personnel helped keep the entire transaction smooth and manufacturing done in a timely manner.

Thank you.

John Schaefer
