MARQ Packaging
PO Box 9063
Yakima, WA 98909

MARQ Packaging:

I am extremely pleased with the purchase of our MARQ High Performance Case Erector. When we decided to increase our productivity and add a new line, we looked at several options. MARQ Packaging was the obvious choice.

MARQ Packaging provided us with a solution to our packaging needs. They delivered a machine that was affordable, flexible and high quality. The availability of special options such as PLC controllers, specific components, and out of spec case sizes was just what we needed to increase our productivity.

The sales and service departments at MARQ are very professional and take the time to understand the needs of their customers. I look forward to working with them on future project.

Thank you for all your help.
