MARQ Packaging Company  
PO Box 9063  
Yakima, WA 98909

Dear Sirs:

I am happy to provide this testimonial letter in regard to the MARQ HPE Case Erector Bottom Sealer which we recently purchased and installed in our Plant.

Prior to installing the MARQ equipment, we were using temporary labor to manually erect boxes. Hundreds of boxes had to be erected in advance to achieve efficient throughput in the Plant. The result was a State Regulatory safety issue. Since we implemented the MARQ equipment, we've resolved the regulatory issue, greatly reduced labor costs, and increased the throughput of production. The MARQ case erector has been an excellent solution to our automation needs.

With expected growth, we are looking forward to doing business with MARQ for other automation needs.

Thank you.
