Looking for an entry level machine with small footprint and big case range? Our HPE-220 is an ideal choice for use space-restricted areas and can produce up to 20 cases per minute. This machine features an ergonomically-friendly continuous feed stack hopper which is adjustable to accommodate several case sizes.

Dual vacuum cups provide a powerful, consistent grip for opening in the cases. A dual flight lug conveying system provides square cases with even sealing and stable case dimensions. Bottom case flaps are sealed with pressure sensitive tape.

Talk to a MARQ representative to see why this machine could work best for your application.

Standard Features

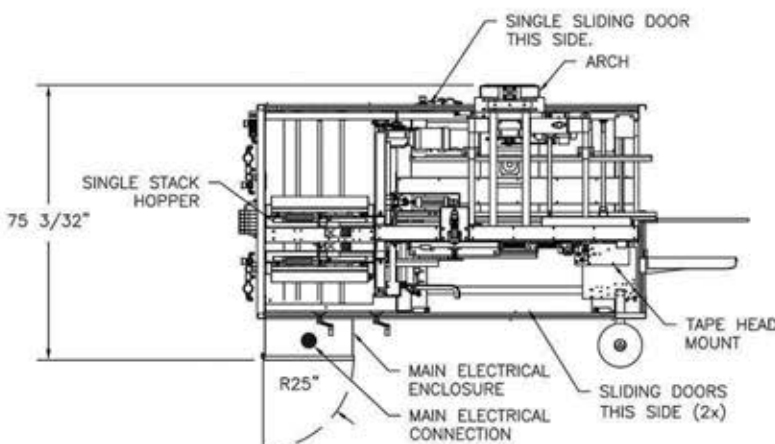

- Wiring practices conform to NFPA standards
- Operator friendly design
- Quick changeover
- Fully guarded
- Continuous feed hopper
- UL508A listed electrical panels
